Summary

Motivated and detail-oriented Full Stack Developer with hands-on experience in React.js, Node.js, and building responsive web applications. Strong understanding of front-end and back-end technologies, APIs, and modern development practices. Eager to contribute to dynamic teams and grow as a developer.

Skills

Web Technologies: Html,Css,JavaScript,React.js,Node.js,Express.js,Typescript,MySQL

Developer Tools and Databases: : Postman, GitHub, VSCode

Experience

eMarketizer Consulting, Full Stack Developer,Kolhapur

January 2024 – May 2025
(1.6 years)

- Leveraging **1.6 years of experience**, developed **Signeting.com**, a fully responsive web application enabling users to design, manage, and deploy personalized email signatures with ease.
- Engineered the front-end architecture using **React.js**, and **Redux**, implementing scalable state management and component-based design patterns.
- Integrated secure **JWT-based user authentication**, session handling, and protected. routes to ensure robust user access control.
- Implemented dynamic formwork flows with real-time validation and live signature preview, improving conversion and usability. a custom Chrome Extension for signature injection into third-party platforms like Gmail and Outlook, enhancing product accessibility across ecosystems.
- Designed and integrated RESTful APIs using **Express.js** and **MySQL**, handling CRUD operations for user profiles, signature templates, and real-time data sync Chrome extension for seamless signature access across platforms
- Emphasized intuitive UI/UX design, full mobile responsiveness, and built a custom **Chrome Extension** for cross-platform signature injection
- Utilized **Ant Design** and **CSS** to translate complex Figma UI prototypes into responsive, accessible, and pixel-perfect interfaces.
- Maintained code health and compliance through **SonarQube** analysis .

CodeSoft , Web Developer Intern , Virtual

July 2023 – Aug 2023

- **Worked on front-end development using HTML, CSS, JavaScript**, focusing on building **responsive, accessible, and user-friendly interfaces**. Optimized UI components for **cross-browser compatibility**, implemented **semantic HTML5** and enhanced **user experience** through interactive design patterns and **state management**.

Education

Master of Computer Application , Shivaji University Kolhapur

July 2023 – May 2025

Bachelor of Computer Science , Vivekanand College Kolhapur

July 2019 – April 2022

Projects

Health Report Analyzer

- Developed a web application that extracts and analyzes health report data . Users can upload medical reports and the system automatically extracts and displays key health metrics.
- Upload and analyze health reports using OCR Display extracted data in a user-friendly interface Store and retrieve reports efficiently for future reference
- Tech Stack: React.js, Node.js, Express.js

Movie Ticket Booking System

- Developed a dynamic web application that enables users to browse and book movie tickets online. The system includes secure user authentication, an admin dashboard for managing movies and bookings, and a feedback module to enhance user experience.
- User registration, login, and session management Real-time movie listing and seat booking functionality Admin panel to manage movies, bookings.
- Tech Stack: HTML, CSS, JavaScript, PHP, MySQL

Restaurant Management System

- Developed a desktop-based restaurant management system using .Net and MySQL to handle day-to-day operations like order management, billing, and inventory control. The system offers a smooth interface for staff and admin users to manage orders, and generate reports.
- Simple order and menu management Automatic bill generation Basic admin control using MySQL database Easy-to-use Windows Forms interface
- Tech Stack: Net , Windows Forms, MySQL

Certifications

Fullstack Java Development (Qspider Technologies)

- Completed hands-on training in Fullstack Java development, covering Core and Advanced Java, Databases, HTML, CSS, JavaScript, React, and application development.

TCS Career Edge Certification

- Focused on enhancing employability skills, including communication, interpersonal skills, digital literacy, and professional conduct.

Git Version Control – Simplilearn

- Completed hands-on training in Git covering version control workflows, branching, merging, conflict resolution, and remote repository management using Git and GitHub CLI.
